### Eco Shops

In the city we are certifying stores that are proactively promoting the 3Rs (Reduce, Reuse, Recycle). These shops have collection areas in front of them and are helping to reduce shopping bag use, they are called "Eco Shops of Kodaira".

### List of stores that are collecting

(Note) they include paper packs with aluminum.

No.	Store Name	Eco Certified Shop	Location	Plastic bottles	Plastic bottle caps	White colored trays	Colored trays	Plastic trays	Egg packs (plastic)	Paper packs	Aluminum cans	Steel cans	Glass bottles/lars	And others

# How to dispose burnable garbage

Please place in the yellow garbage bags.

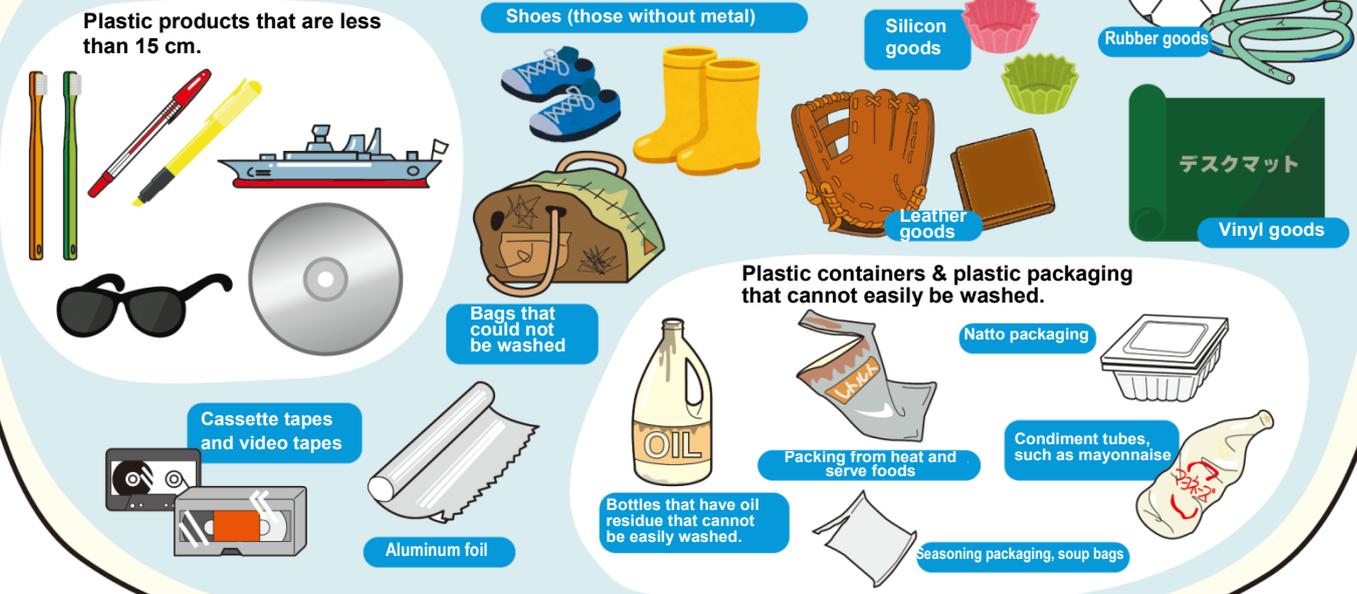

As of now, non-burnable items including those that cannot easily be washed, plastic containers and plastic packaging, leather goods, vinyl goods, rubber goods (including silicon), plastic containers that are smaller than 15 cm, have become burnable garbage. Please remove batteries before placing them outside to be collected.

## Items that do not fit within the designated collection bags are considered oversized garbage.

## Items that have changed from "Non-burnable garbage" to "Burnable garbage".

### ○ Edible oils

Cooking oils should be absorbed into cloth or paper, or they should be solidified with a solidifying agent (it cannot be collected as a liquid).

#### ⚠ Cautions

Items that are not included within designated collection bags, such as bamboo shoots, are considered oversized garbage. When cylinder or stick shaped garbage is placed within its designated disposal bag, be sure to securely tie the opening shut.

## How to dispose home medical wastes

♻ If the item does have the mark or symbol, it is considered to be plastic package or plastic container.

### Items that are burnable garbage

Drip tubes and urine collection bags are burnable garbage. Please drain the waste into the toilet.

### Items that should be returned to the proper medical institutions.

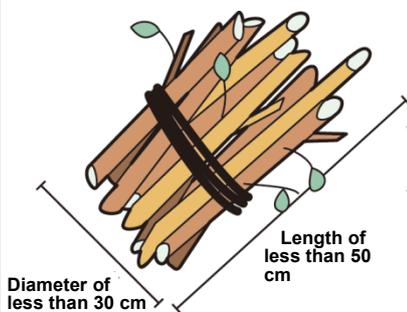

Sharp objects such as injection needles, syringes with needles, and pen injectors as they cannot be collected in the city.

## Items that are collected for free

Please place these items in a transparent or translucent bag.

### Tree branches (they are made into wood chips and are recycled into products.)

Tree branches that are cut at home are collected separately from other burnable garbage. Branches must be less than 10 cm in diameter, as shown in the diagram on the left, a bundle of branches must be less than 50 cm in length and 30 cm in diameter. If those regulations are followed, 5 bundles can be collected for free at a time.

- \* Branches that have a diameter of 10 cm or more, or if 6 bundles are placed outside to be collected, they become oversized garbage. Please apply to Kodaira City Waste Collection Reception Center (phone 03-5715-1774).
- \* For branches of wood that have a diameter of 20cm or more please contact the Resource Circulation Section.
- \* If you hired a company to clear your trees or grass, please have them dispose of the material.

### Grass and leaf garbage is collect by volunteers

Please divide fallen leaves and grasses that come from the household into 5 bags per collections.

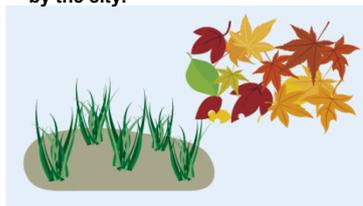

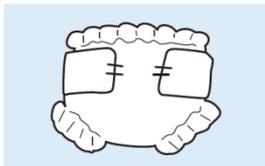

- \* If you hired a company to clear your trees or grass, please have them dispose of the material.
- \* Please separate the garbage collected by the volunteer cleaners into "burnable" and "non-burnable" garbage and mark them properly with the volunteer seal distributed by the city.

### Disposable diapers

Please remove biological contents via toilet prior to disposal.

- \* Please do not do this for anything other than disposable diapers.

Please dispose of cloth diapers, diaper covers, sanitary supplies, diapers for pets, sheets, etc. in the designated "burnable garbage" collection bag.

## Weight reduction of raw garbage

40% of burnable garbage is raw garbage. After reducing unused foods and food loss such as leftovers, after that ....

Be sure to drain raw garbage when you dispose of it. Putting it in the net and squeezing by hand is quick and effective, leading to weight loss of around 10%.

### ○ Recycling raw garbage to be made into compost fertilizer.

Raw garbage that is from food can be collected and separated, to then be recycled into fertilizer as a resource. A "Food Recycling Project" is being conducted. For those who wish to participate, make a group with three or more households, sort their food scraps, and place said items into a private bucket once a week. The fertilizer produced will be handed out to the individuals who participated.

### ○ Food scraps (raw garbage) purchase subsidy for processing equipment.

Subsidies are provided to food scraps (raw garbage) processing equipment (equal to half of the purchasing price, up to 30,000 yen for domestic use, up to 300,000 yen for business use)

Recycled charcoal (see page 17) and unused food and edible oil waste can be collected from events.

有料 Paid service  
收费 유료

# How to dispose non-burnable garbage

Please place in the designated opaque bag.

Ceramics, glass, plastic products more than 15 cm in length, and metals are non-burnable garbage.

Please remove batteries before placing them outside to be collected.

Items that do not fit within the designated collection bags are considered oversized garbage.

## Caution

- Please wrap these items such as broken objects, knives such as kitchen knives, nails, needles, and razor blades in newspaper and cloth so that passersby and the collection workers do not get injured. Write "Kiken" on the designated collection bag before placing it out to be collected.
- Ceramic dishes can be recycled (reused as is) or recycled as a raw material for other ceramics and can be placed with recycled charcoal (see page 17).

Umbrellas (or long items under 1 meter in length) must be put in a designated collection bag that is longer than half of the length of the item, and the designated bag should be closed tightly.

## To recycle without placing things in the garbage takes more time.

### Used small household appliances

#### Box collection

If you bring the following small household appliances to the collection box installed in Kodaira's City Hall, Eastern and Western branches of the Municipal Offices, the City Library (Central, Kihei, Shimojuku, Tsuda, Onuma) and the Nakamachi Terrace, they can then recycle them for their metals etc. (It cannot be done through a facility if it does not have a box that can be closed).

#### Small home electronic items that can be collected

AC adapter  
ETC card reader  
from a vehicle  
IC recorder  
USB memory stick  
Earphones  
Car audio systems  
Car navigation systems  
Flashlight  
Mobile music player

Portable game players  
Mobile phones  
Electric cables  
Charger cords  
Stationary game players  
Desk calculators  
Digital cameras  
Electric shavers  
Electric clippers

Electronic blood pressure monitors  
Electronic clinical thermometers  
Electronic scales  
Electronic notebooks  
Electronic toothbrushes  
Phones  
Watches  
Hard disks  
Film cameras

Hair Irons  
Hair dryers  
Headphones  
Portable car navigation systems  
Portable video cameras  
Hearing aids  
Memory cards  
Radios  
Remote Controllers

- The opening of the collection box is 11 cm in length and 24 cm wide. Please place items that do not fit within this opening in non-burnable garbage.
- Other than these collected items, please follow the usual rules of putting out trash for collection.
- Please remove personal information from products before placing them out for collection.
- Please remove batteries from products before placing them out to be collected.
- Small household appliances will not be collected for recycling even if they are placed out on the days when normal non-burnable garbage is to be collected.

### Items collected by courier

Applications can be made online using personal computers or smartphones) at Renet Japan Co., Ltd., which has been designated by the country. So, the courier will come to the home/address at the desired date (the shortest time frame being the next day).

The fee: If the collection destination address is within Kodaira, and if you include a personal computer, one box will be free at a time (optional service fee may be charged).

Details / Application on the WEB

Renet Japan

### Let's take recycled charcoal.

The date and place is decided 4 times a year for collection of recycled charcoal, ceramic dishes, used small household appliances, unutilized foods, and edible oil waste. By recycling resources, we aim to realize a recycling-oriented society by reducing the environmental burden and reducing the amount of items disposed of in landfills.

**Ceramics** - such as tableware ceramics, including dishes used for eating, and items that are broken or have missing pieces are also acceptable. Things other than dishes (ashtrays, vases etc.), that are made of glass, items used for cooking directly over open flame (such as earthenware nabe pots), items with a sticker attached (it is okay if the seal is peeled off), and items that are dirty (they are okay if washed), cannot be collected. Please take the paper used to wrap goods home.

**Small household appliances** - are collected together with similar items with their boxes.

**Unused food** - food that is left over within the home can be brought to a food drive, it can be used as a food ingredient at the children's cafeteria in the city, and it can also be offered to people who are having trouble with meals for various reasons. Dry items, such as canned food, food that is prepackaged and can be heated, and pasta that is unopened and that does not have damaged packaging, and which also has an expiration date later than the following month can be donated as well. (Refrigerated or frozen and bottled food is not required).

**Used edible oils** - specifically vegetable oils and fats that have been used in the home. It does not matter if the oil has been used or not. However, animal oil such as lard and butter, and oils other than edible oils are not accepted. Recovered used edible oil is reused as BDF (biodiesel fuel) and is used as generator fuel, etc. at events such as the "Kodaira Environment Festival".

※ At the window of the resource recycling station, we collect pottery dishes, small household appliances, used edible oil, postcards and ink cartridges..

### Used ink cartridges

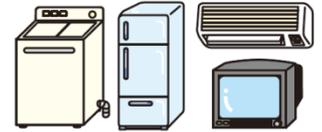

The following companies' used cartridges are recycled when you bring them to the collection box of Kodaira's City Hall. (Only those used at home, especially those that are badly broken are "burnable garbage")

Brother Industries, Ltd., Canon Inc., Dell Co., Ltd., Seiko Epson Corporation, Japan Hewlett-Packard Co., Ltd.

# Items that cannot be collected by the city

## How to dispose air conditioners, TVs, refrigerators/freezers, washing machines, and clothes dryers

- These cannot be collected as oversized garbage within the city.
- In the case of a replacement, please bring it to a retailer that will replace it and dispose of it.
- If you are wanting to simply dispose of it, please consult the store in which it was originally purchased from on how to dispose of it.
- If the original store that it was purchased from is unknown, and if it cannot be collected from the original store due to distance - please dispose of it in the following way.

At Japan Post Bank or post office (savings window) make the transfer for the home appliance recycling fee.

As household appliance recycling fees varie depending on the manufacturer, please check the manufacturer name and item size beforehand.

\* Anywhere within the country, the Japan Post Bank or the post office (savings window) can handle this issue.

Asking for transportation

In case you cannot personally transport the item, ask the collecting / transporting company on the right hand table, or have it accepted at the business center. (Toll)

**Inquiry** Kodaira City Cleanup Cooperative Association "Administrative Center" ☎ 042 (313) 8491

Collecting/transporting companies	
Ogawa Koei Co., Ltd.	042(345)1626
Daitokenko Co., Ltd.	042(343)4651
Takasugi Shoji Co., Ltd.	042(321)2690
Tokiwa-gumi Incorporate	042(341)3524
Nakamura-gumi Incorporate	042(461)5628
Magomekomishoji Incorporate	042(341)3611
Yoshida-gumi Incorporate	042(341)2932

Bring it directly to the drop off location.

If you can transport the item by yourself, you can bring it directly to the designated pick up place. (In that case, collecting and transporting expenses are not required)

Please visit the city's website or bring it to the Resource Circulation Section.

## Disposal methods for personal computers (there are two ways)

- 1 Since the maker collects and recycles the used PCs from the home, please apply directly to each manufacturer.

If the personal computer was assembled by hand or you do not know the original manufacturer, **Inquiry** contact the PC 3R Promotion Association. ☎03(5282)7685

For details on how to dispose personal computers and the fee amount, please contact the maker or visit the website of the PC 3R Promotion Association (<http://www.pc3r.jp/>).

- 2 Applicants apply online via (personal computer or smartphone) to Renet Japan Co., Ltd. (see page 17), which is a national certified business operator, and the courier collects it from the home (the shortest time frame being the next day). Application by phone cannot be done. Fee: one box is free for each use (If the collection address is in Kodaira city)

For information on optional service charges, and the application and details, please visit LINNET JAPAN CO., LTD's website (<http://www.rent>)

## Items that cannot be handled by the city.

- For items that cannot be processed at city facilities, please ask dealers or waste disposal companies to collect these items.

Batteries, tires, automobile parts, motorbikes (over 50 cc), fire extinguishers, propane gas cylinders, fireproof safes, pianos, kerosene, chemicals, pesticides, building waste, concrete, blocks, stones, sand, soil and so on.

# Method of disposing refuse from businesses

Business-related garbage (business-related general waste), is considered recyclable along with garbage that is produced by business activities of shops and companies. Business activities include public works and public services such as education and welfare projects as well as those aimed at profit. (Oversized garbage and industrial waste from business enterprises cannot be handled in the city)

\* Please delegate the processing of industrial waste to a trader authorized by the Government.

<b>Small emissions trader</b>  (Ave. less than 10 kg per day)	<p style="text-align: center;"><b>Purchase designated business collection bags from the city, and have collections follow the city's processes.</b></p> <p>A fee is paid by purchasing designated collecting bags and the like, which are placed in front of the business office by the designated day of the week and sorting method of the city, and the city (contractor) will collect it.</p> <p>* When you start collecting, please contact the Resource Recycling Division 2 days in advance of Saturdays, Sundays, Holidays, New Year's holidays before the collection start date.                  * Even a small emissions business operators may contract with a collection and transport permitting company.</p>
---	---

The types and prices of the designated bags

\* After February 21st, 2019, the bags will be sold at 22 dealers

The types of bags	Size of bags	Price (garbage disposal fee)
 <p><b>Bags used for burnable and non-burnable garbage</b></p> <p>* Separate items before they are placed out to be collected.</p>	Large bag (equal to 45 liters)	3,000 yen (10 bags per 1 box)
	Medium bag (equal to 20 liters)	1,300 yen (10 bags per 1 box)
	Small bag (equal to 10 liters)	600 yen (10 bags per 1 box)
 <p><b>Bags used for recyclable goods</b> (Glass bottles, cans, plastic bottles, and plastic containers and plastic packaging)</p> <p>* Separate items before they are placed out to be collected.</p>	Large bag (equal to 45 liters)	1,200 yen (10 bags per 1 box)
	Medium bag (equal to 20 liters)	500 yen (10 bags per 1 box)
	Small bag (equal to 10 liters)	200 yen (10 bags per 1 box)
 <p><b>Recyclable items that need to be tied up</b> (Newspaper, magazines (books), miscellaneous papers, and cardboard)</p>	100m	7,200 yen (1 roll)
	50m	3,600 yen (1 roll)

※ Please be sure to fill in the shop's name and business place name in the designated column on the bag or attached to the string.

## Disposal locations

Please put out in front of the office of the building facing the road. However, please contact us in advance if there are special circumstances such as if collecting vehicles are not to enter the area or shopping district.

## Collection date and sorting method

Please put out by the same day and use the same sorting method as home garbage. When shops and residences are located together, please separate business waste and home garbage.

<b>Large emissions trader</b>  (Ave. 10kg or more per day)	<p style="text-align: center;"><b>Contract and process directly with the collecting/transporting company that has received city permission.</b></p> <p>Contact the company for information on option contracts such as the collection method and payment according to the emission amount.</p>
--	--

The sorting method is the same as for household garbage, but please consult with each collecting / transporting company for details on proper disposal. etc. There are seven companies listed on the right as collection and transport operators in Kodaira city. In addition, there are also collection and transport permitting companies outside the city, so please check the city's website for details or contact the Resource Circulation Section.

### Kodaira City Cleanup Business Cooperative Association 7 companies

Trade name	Location	Phone number
Ogawa Koei Co., Ltd.	1-37-31 Gakuen Nishi-machi	042(345)1626
Daitokenko Co., Ltd.	5-19-20 Ogawa Higashi-cho	042(343)4651

# How to dispose oversized refuse

Oversized garbage from business is not collected (such as items from companies, shops, community associations, etc.)

## 1 Application

### Telephone applications

Please apply to Kodaira City Waste Management Center ☎ 03 (5715) 1774.  
Reception Hours Monday - Saturday (excluding holidays, year-end and New Year holidays)  
8:30 AM - 6 PM

### Application through the service window

Please come to the resource recycling section window.  
We will relocate to the recycling center (5-19-10 Ogawa Higashi-cho Kodaira city).  
Reception hours Monday to Friday (excluding holidays, year-end and New Year holidays)  
8:30 AM - 5 PM

### Online Applications

Please apply on the Kodaira city homepage.  
You can apply at any time except for when the website is under maintenance.

Some items are not accepted through an internet application due to extensive information needed for confirmation.

\* Please check the size of the item in advance.

## 2 Purchase the waste treatment sticker

- Please purchase at the garbage disposal sticker handling store which can be found on page 22.

\* If you do not know the nearest waste disposal seal shop, you will be informed when you apply.

Can it be used if it is repaired?  
Please bring it to a recycling shop or repair shop before throwing it away.  
Be sure to think about who can fix the item (have restraint and reuse).

## 3 Place the garbage disposal sticker on the item.

- Please fill in the name and application date on the waste disposal sticker and paste it on a place that is easy to check.
- Please place the item in an area that is easy to access, such as a road, so that it may be collected even if you are away.

\* Please arrange collectively with other houses at the collection site.

## 4 Collections

- Normally, it will be collected within 4 days from the day following the reception day (except Saturdays, Sundays and holidays).
- In the case of application via the Internet, we will inform you of the collection start date by "Notification Mail".
- Items will be collected even while you are away.

\* Collection cars are different depending on goods, so it may not be collected all at once.

\* When it is close to the year-end and New Year's holidays, there are usually many applications, and it may take days for the oversized garbage to be collected.

### Kodaira oversized garbage Reception center

☎ 03(5715)1774

Row "Ra"	Wire kitchen racks	600

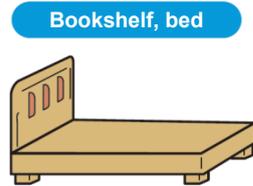

★ Fees are different depending on size.

Oversized garbage can also be disposed of in a designated collection bag, in that case it would not be necessary to apply for oversized garbage to be removed, nor would it be necessary to purchase the oversized garbage removal sticker.

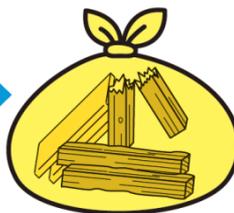

Separate the item(s) and then place them in the specified collection bag(s) and securely tie the bag. Please place out for collections according to the collection date calendar.

To prevent the bag from becoming excessively heavy, be sure that the bag can be comfortably lifted in one hand and that the bag will not tear from the weight.

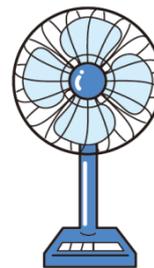

Examples of items placed out to be collected.

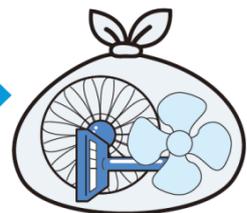

Bookshelf, bed

Burnable garbage

Fan

Non-burnable garbage

# List of retailers for designated collection bags

Please check the Kodaira Chamber of Commerce and Industry website for the latest information.

## Concerning rules on how to dispose recyclable & non-recyclable refuse

- Please sort everything properly and put it out to be collected by **8 o'clock in the morning** on the designated collection date. Collection will continue on **Holidays** except for year-end and New Year's holidays.
  - \* The collection date of recyclable items and garbage is determined by the region. Placing items out on days besides these days will be similar to illegal dumping in that they will distribute dust and odors, and will attract crows and cats. This may cause trouble within the neighborhood, so please only put items out on the designated collection days.
  - \* Collections begin at 8 in the morning, but the collection time may change based on traffic conditions of the day, the weather, and the amount of recyclable items and garbage gathered.
- Please place items in disposal locations that are easy to check, such as the roadside and inside the premises in front of the doors.
  - \* Please make sure that garbage is visible from the road to prevent oversight on collection day.
- Put recyclable items and garbage in their designated bags and securely close the opening of the bag.
  - \* To prevent it from becoming excessively heavy, make sure that the bag can be comfortably carried in one hand and does not rip from the weight.
- Burnable garbage, non-burnable garbage, plastic containers & plastic packaging, please be sure to put it in **the specified collection bag** and please dispose of it correctly.
  - \* If it does not fit within the burnable and non-burnable garbage bags then it is considered oversized garbage.
  - \* For **other items**, put them in transparent or semi-transparent bag so that they can be checked easily by item, or bundle them with strings etc. (bags of glass bottles are only for glass bottles, bags of cans are only for cans, bundles of newspapers and cardboard must be tied with a string properly before being put out)
- If a lot of recyclable resources and garbage is placed out all at once, it will hinder the collection of other people's items and garbage. Please try to put out recyclable items and garbage in a planned manner (up to 5 bags per collection).

### Kodaira City "Garbage Separation Application"

i Phone →

Android →

Currently, Kodaira City's garbage separation application (free installation and purchase) is being distributed for smartphones. This application can be used to easily check various kinds of garbage and their information as well as upcoming events. There are useful functions, such as "garbage collection calendar", "garbage separation dictionary", and "how to put out your garbage". We welcome you to use this app.

\* Please read the QR code at the top or visit the "App Store" or "Google Play" to install.

\* The communication fee will be borne by the user.
